ABOUT ME

My name is Jessica, from Jakarta, Indonesia. I am an experienced architect designer, graduated from The school of Architecture, Building and Design at Taylor's University, Malaysia. I completed 3-year-degree programme in 2012 and obtained Bsc.(Hons) Architecture in the same year.

I have 6 years of experience in architecture industries, ranging from interior design, residential, commercial, Industrial, hospitality, mix-used development, to master plan. Before I graduated, I had an opportunity to intern at Archicentre Sdn.Bhd for few months. In 2012, she had an opportunity to join Arkidesign Sdn.Bhd. Then in 2014, she joined Soon Chai Architect. In 2016, she came back to her home-country, working for a developer in Jakarta, Indonesia. I have joined +1 Studio Architects and Designers in Shanghai, China since 2018. Throughout my employment period, I was involved in various stages of architectural design process, from preliminary studies, conceptual design, basic programming ,development, architectural drafting, architectural documentation, 3d modelling and presentation.

From the opportunity I was given, I acquire a good knowledge a certain phases in a project design. And, I believe it is time to search for new experiences now, which might better develop my knowledge and skills I believe I possess the right combination of knowledge and capabilities to be of your advantages
